● What is your personality?

If I work with someone frustrating me, I do it all by myself under my responsibility.
I do my best for my assignment from my excellent endurance and sense of responsibility. I hate harming others or being harmed, and I don't care about other's work! I do by myself! I am not a style that depends or relies on others!
Consulting worries shall be logical solution not emotional empathy!
My life is always busy and I work well as I am smart!
Maybe that's why I lead an easy life and I never do what I don't like!
But, If I have to do something, I usually try to find the way finishing it with least efforts and as quickly as possible I am full of confidence to everything and set out the firm target. I am a psycho with charisma and sex appeal!

● Be careful!

As I might be smart, I tend to ignore someone if he is not as smart as me.
I tend to intentionally hurt others. I will never accept the repeated mistakes.
I hate the most the person with indecisiveness and incapability and stubbornness
I hate somebody say he can't do without trial! I am a kind of bulldozer!!
I hardly understand ineffective customs.
I like debates and bet on the different opinions due to my strong personality to win
I have to win at any rate.. Criticism not acceptable!!!

● Matching well with this kind of person!

I like a person who has his own vision and is smart and trusts and recognizes me.
I hate a person emotional every moment! If I meet an attractive person of my idol,
I fall in love with him at once.
