## DMR

The most effective DMR is still the MK14, if using SLR, SKS without Auto shooting mode, it will be very difficult to destroy BRDM 2. Although the damage is only behind Sniper Rifle, DMR also requires 60 shots New ammunition can detonate the BRDM 2 armored vehicle, but also must use Auto firing mode and at close range to destroy this vehicle.

Remember, do not use SLR or SKS if you do not want to be unjust. If using Sniper Rifle do not expect to detonate BRDM 2.

## SMG

SMG is not a suitable weapon for destroying BRDM 2, because the distance that SMG can promote effectively is not too far. And the enemy team can completely detect you easily when you use SMG.
