

WhatsApp introduces new WhatsApp Business for businesses

WhatsApp has launched a new WhatsApp Business (Enterprise application) application for small business owners to communicate with their customers. Many businesses have used WhatsApp and thanks to it, communication and communication have become more effective.

WhatsApp has launched a new WhatsApp Business app for small business owners to communicate with their customers. Many businesses have used WhatsApp and thanks to it, communication and communication have become more effective.

Accordingly, businesses can download new applications and set up their accounts. Compared to the standard application, this new WhatsApp Business application will allow more information on profile pages, such as business descriptions, email addresses or store addresses and websites, to help customers easily access , more detail.

WhatsApp Business will also have messaging tools that will allow users to send quick replies to frequently asked questions, greetings to introduce themselves to customers and delete messages when needed .

Users can also view message reading statistics simply. The account will be marked as a reputable Business account so customers can easily identify the trust, and WhatsApp will also verify some accounts over time so that customers know they have found it correctly. official account.

WhatsApp Business is releasing in Indonesia, Italy, Mexico, UK and the US, with other regions receiving it after a while longer. The application can only work on Android, which is understandable, but the sad thing is that the app is not present in WhatsApp's two largest markets: India and Brazil.

You can download this app from the link below: [Download WhatsApp Bussiness](#).
