Cuckoo rice cooker is very diverse in design and type suitable for many different purposes of customers. If you simply want a pot to cook rice, you can use some models with a removable lid or a simple lid. If you want more functions, you can choose electronic rice cooker, high-frequency rice cooker.

2. Durability and long life

Pot: Cuckoo often uses aluminum alloy or cast iron to make the pot. The common point of these two materials is that the thickness is very high along with the ability to keep extremely good for you to safely use without fear of being damaged when bumping. On the surface of the pot is covered with a non-stick coating with high quality and durability to ensure the safety for the health of users.

Pot shell: Like the pot, the shell of the Cuckoo electric rice cooker is quite thick with many layers that provide stable heat transfer and keep capacity. Thanks to that, the rice is usually cooked evenly and tastier.

In general, the life of the Cuckoo rice cooker is quite high, not less than 7 years, which helps users save a small expense.

3. Advanced technology

Cuckoo rice cookers are often integrated with 2-3 heat trays, helping the heat to be radiated evenly during the cooking process.

Besides, Cuckoo products are also equipped with modern technologies such as:

1. Fuzzy Logic technology
2. Inverter technology
3. IH technology . helps increase nutritional quality for dishes.

The vent valve system also helps maintain a stable amount of water so that rice and other dishes always get the standard deliciousness without being too dry or too much water.

4. Various cooking modes

The pot is highly appreciated by the function as well as the varied cooking mode. You can choose fast cooking mode, slow cooking mode or up to 24 hours of extremely convenient cooking.

In addition to cooking rice, the pot is also used for cooking porridge, cooking sticky rice, making cakes or decorating it, making it even black garlic .

5. Quality guaranteed, carefully censored

Currently, Cuckoo electric rice cooker is divided into 2 types including:

1. **Domestic Cuckoo rice cooker:** this is the type produced right in Korea and all Korean, when exporting directly to Vietnam, the words "Made In Korea" are printed on the packaging.
2. **And Cuckoo rice cookers are manufactured from third parties such as** Thailand, China, Vietnam . for these products, the words "Made In Korea" will not print but the words will be printed. "Designed by Cuckoo" to help you distinguish.

No matter where the pot is made, it is subjected to the most rigorous, rigorous inspection process before reaching consumers. Therefore, you can feel secure to use.

Disadvantages of Cuckoo rice cooker
