

# Which 90-liter refrigerator is cheap with a freezer?

In this article, we will help you list some of the best 90L freezer models available today.

In addition to 2-door refrigerators, mini-refrigerators are products that are widely chosen by consumers, especially for small families of 2 people or students .

However, when choosing a mini fridge many people still want it to be equipped with a freezer like a proper refrigerator. In this article, we will help you list some of the best **90L freezer models available** today.

## What is a mini fridge with freezer?

Mini fridge is a series of small refrigerators with a capacity of 100 liters or less, especially this type of cabinet only has one door. Mini cabinets with freezer compartments are designed with a small compartment inside to preserve frozen food. And of course, if equipped with a freezer, there is no separate door.

Mini fridge with freezer is very suitable for:

1. Worker or student is alone.
2. The bedroom needs a small refrigerator for water, fruit, and cosmetics in the room, when not needed to go down to the refrigerator in the kitchen.
3. The hotel needs to equip the mini fridge with additional amenities for guests.
4. Work room.

## Advantages and disadvantages of mini fridge with freezer

**Advantages:**

1. It has a compact design, does not occupy much space and is easy to move when needed. Suitable for small families.
2. Power saving, less power consumption than the 2-wing refrigerator, 3-wing refrigerator .
3. Mini refrigerators have convenient ice compartments, direct cooling mode so cooling is quite fast.
4. Low price, suitable for low-income people.

**Defect:**

1. The model is not diverse to choose from. Does not contain much food due to its small capacity.
2. The ice compartment is often closed with snow. Regular defrosting and cleaning must be done so as not to haunt the fridge. The speed of ice making is slower than that of a large refrigerator
3. Not equipped with modern technology such as: Antimicrobial, deodorizing, no anti-snow function.
4. It is not suitable for long-term preservation of foods such as meat, fish, leftovers because the temperature is not as cold as the large refrigerators and easily haunted by refrigerator smells.

## **Top refrigerator with a capacity of 90 liters with the most popular freezer compartment today**

Here are some low-cost 90-liter refrigerators with the most popular ice shelves for users:

### **1. Refrigerator Electrolux EUM0900SA - Reference price: 2,650,000 VND.**

**Advantages:**

1. A mini fridge with a freezer with a capacity of 92 liters, to get plenty of food.
2. Glass tray system with load-bearing, limiting cracking.
3. Mini cabinet doors are made of shiny stainless steel, quite modern gray.
4. Low power consumption, capacity of only 0.55 kW / day.
5. Cabinet doors can change the opening direction.
6. Has LED lighting.

### **Defect:**

1. Slow ice, you can make ice with nylon or aluminum mold, the ice is faster (about 4 hours). Making ice with plastic tray will not freeze.
2. The wings are not very tight.
3. Snow.

## **2. Refrigerator 90 liters Aqua AQR-95AR - Reference price: 2,750,000 VND.**

This 90-liter refrigerator model has a plastic tray and a freezer compartment inside. The refrigerator shell is covered with electrostatic paint in addition to aesthetics, it also helps users convenient when cleaning.

### **Advantages:**

1. If you need to make ice quickly, you can adjust the refrigerator temperature to level 4.
2. Under the freezer compartment has a tray to catch the water, so when the water is released, it does not flow out.
3. Low power consumption: 0.8kw / day.
4. Luxurious, beautiful colors.
5. There are egg containers.
6. There are LED lights for easy access to refrigerators, more durable and energy-saving than incandescent lamps.
7. Quite smooth operation.

### **Defect:**

1. Small ice compartment (about 12cm high) and heavy snow.
2. The opening of the freezer compartment is automatically lowered, making it difficult to remove ice.
3. On average, you should defrost once a month.

Note: When discharging, prevent you from letting the stone melt naturally. Do not try to pry the ice out because it can puncture the tray.

### **3. Midea 93-liter mini refrigerator HS-122SN - Reference price: 2,590,000 VND.**

#### **Advantages:**

1. Quite smooth operation, does not cause unpleasant noise.
2. Equipped with a cooling fan system, the cool air spreads evenly throughout the cabinet. It also helps to limit snow.
3. There are LED lighting.
4. Environmentally friendly for not using CFC gas.
5. Compact design can be easily installed.

**Defect:**

1. There is still a snowing situation.
2. Making ice a bit slow.
