

Which country is RIO hair removal machine? Is that good?

RIO hair removal machine equips up to 200,000 pulses of light to help eliminate hair permanently at home safely and effectively. RIO hair removal machine is a very good British brand, trusted by the majority of women.

RIO hair removal machine is an indispensable beauty product for women with long hair and long legs. However, do not know where RIO hair removal machine comes from, is it safe and durable?

RIO hair removal machine - Brand from England

RIO is a brand specializing in producing beauty products from England such as foot massage basin, water toothpick machine, facial steam machine. Especially, RIO hair removal machine is trusted by women.

Typical is the personal hair removal machine RIO IPHH IPL.

Is the personal hair removal machine RIO IPHH IPL good?

1. Advantages of RIO hair removal machine using IPL technology

RIO hair removal machine is used to ensure safety, without causing skin irritation

When using hair removal machine, it will emit high intensity pulses of light through the skin to shine into the hair follicles, so it does not affect the skin, it does not cause burning pain but only works to destroy the original hair follicles just bring The effect of hair removal is high but it is safe. Absolute light pulses are not harmful to health.

IPL technology does not cause irritation, redness, so it can be used to remove bikini, armpit, and facial area.

IPL technology brings high hair removal effect:

When hair removal by RIO hair removal machine, hair will grow longer, hair will grow thin and lighter color, and look unclear.

RIO IPHH IPL does not cause side effects for many subjects

There is no evidence that RIO hair removal is harmful to health. It can remove hard hair (like beard), remove soft hair, short hair, long hair, so it can be used for both men and women.

2. Outstanding features of RIO hair removal machine

Thoroughly eliminates hair on most body hair areas

RIO IPHH IPL personal hair removal machine can remove hair, hair, armpit hair, bikini hair and facial hair will meet many purposes for users.

Before using it, shave the hair in the area to be removed first. Hair removal time for each region is as follows:

Half-leg: 8 - 10 minutes in common mode.

Legs: 15 minutes in common mode.

Bikini area: 2 minutes in intensive mode.

Armpit area: 1 minute in intensive mode.

For face area:

1. Each flash of the lamp must be separated by at least 5 seconds.
2. Never use more than 10 minutes at a time.
3. Do not look at the Flash during the thorough process.
4. Do not use on eyelashes, hair, eyebrows.
5. Do not thoroughly surround the eye area or lips.

Video tutorial of using personal hair removal machine RIO IPHH IPL

A lot of light pulses

Compared with home hair removal machines, RIO hair removal machine has many times more light pulses, the number of pulses up to 200,000 shots should be used longer to replace the pulse head. Sufficient amount of pulse until you remove the hair.

Effective use only after 4 - 6 weeks

Hair removal after 4 - 6 weeks with an RIO machine will notice a clear effect: the hair is gradually removed and gradually disappears.

Time of use: once a week, after 4-6 weeks without seeing the hair grow back, do not use the machine.

It is possible to select the appropriate power level and hair removal mode

RIO hair removal machine has 5 power levels suitable for each hair area to be thoroughly. There are 2 modes of hair removal suitable for each skin type to bring high hair removal effect.

3. Buy RIO hair removal machine where genuine, ensure quality

Genuine RIO hair removal machine will be imported directly from the UK and 24 months warranty. Also need to choose reputable selling places. You can refer to a very reliable genuine sales address that is META.vn.
