Learn about Delonghi oil heaters

Source

Delonghi oil heater is an Italian brand, produced by modern technology of European standards, so it can meet the demand of fastidious customers.

Advantages of DeLonghi oil heaters

1. Design with modern design, youthful colors should be preferred by most users
2. There are many models with different styles, from 9 to 12 heating rods, suitable for rooms with an area of less than 25 m². The heating rods with wide surfaces make the heating capacity 35% higher than conventional heaters.
3. The heater set and the machine are made of high-quality materials, enclosed, so it is safe to use.
4. DeLonghi oil heaters operate on heating the oil bar, creating heat that makes the room warm instead of burning oxygen like heating lamps. Since then, do not dry your skin, suitable for families with young children, the elderly.

5. The machines often have automatic temperature sensing mode to adjust appropriately to the room temperature, saving significant power.
6. Some models of this brand also have an automatic timer function for you to be more proactive.

A special thing that any user is interested in using an oil heater is whether the product is safe.

Delonghi is one of the brands that produce quality oil heaters, with high safety. Products with absolute anti-burn ability, safe to use for both adults and young children. The heating element is enclosed by high-quality material so it does not burn when touched.

In addition, the system also has a system to automatically disconnect when the power is tilted, pouring . so users can be completely assured.
