6. Cantel NT CAVIET NT-570ES Plus II;
7. Equivalent computers.

Parents and students should pay attention to buying the right machines to get familiar with the machine while learning in class, avoid being confused when entering the exam room.

Pocket calculator is an indispensable learning tool for high school students.

## Select a computer to do many types of calculations

At high school level, trigonometric calculations as well as transcendental calculations are done very often, and pocket calculators will be an effective tool for students to calculate and re-examine the results of their work.

Therefore, computers should be able to fully perform these types of calculations, and it would be better than a simple computer that can only be added, subtracted, multiplied, divided . basically.

The more modern models are, the more functions they can perform, some machines can solve third-order equations, inequalities . like Casio FX 570VN Plus or Vinacal 570 ES Plus II. In particular, new pocket computers also have faster processing speeds than older models.

## Choose a computer with high durability

Machine durability is also a factor that should be considered when choosing to buy a portable computer. Durable machines will not have to be replaced many times, when dropped, there will be less problems and effects. Casio computers are often the most durable pocket computers.

The famous Casio pocket calculator is persistent.

## Consider prices

Often, pocket computers have a price range ranging from **250 to 650 thousand VND** . Students should consult carefully the functions of the machine and consider their own needs because the more powerful the device, the more expensive it is.

Parents and students also noted to buy genuine computers, full anti-counterfeit stamps and warranty cards to ensure the quality and durability of the machine.

Hopefully, the above sharing will help high school students and parents choose to buy the best pocket computers for learning and examination for natural science subjects in the block. High school
