The best aluminum ladder brands today

Types of popular aluminum ladder brands are now and well known such as: Aluminum Nikawa ladders, Aluminum ladder Advindeg, Aluminum Nikita ladders, Aluminum ladder Ameca . The products from this brand have been Very appreciated use. Quality products have been tested for quality and durability standards.

Versatile aluminum ladders are known as A-ladder, retractable ladder, ladder, sliding ladder. In which A and ladder stairs, sliding ladders are aluminum ladders that are commonly used in families or civil repairs. Particularly with the withdrawal scale, in the industrial electric repair industry or more used.

Nikita versatile aluminum ladder, Nikawa multi-purpose aluminum ladder

Nikita is a Japanese brand, usually these types of ladders are warranted for 12 months.

Users can rely on the number of stairs to select a product that suits the family's needs.

The advantages of these versatile aluminum ladders are flexibility, which can turn into U-shaped ladder, A-ladder, or I-ladder and fold easily. For example:

The 6-piece Nikita NIK46A is about VND 2,850,000.

1. 6 times more flexible to help you in many jobs depending on terrain and different heights. Use automatic, safe collapsible lock. (Stainless steel automatic lock box, durable so you can feel secure when using).

2. The key points of the NIK46A scale are designed very firmly. Thick rubber base has high grip, anti-slip when used.
3. Taiwan high quality aluminum alloy material
4. The maximum height of 7m15, the height of letter A 3m45 (12 steps on each side) and the height of 1m33 shorten are suitable for many different jobs.
5. Load capacity of 150kg
6. Warranty 12 months.

You can also refer to the Nikawa **aluminum ladders** such as the **Nikawa NKB-43 multi-function aluminum ladder for about VND 2,470,000** - The Nikawa NKB-43 can change the shape in a very flexible way into an A or stretch the letter I for use. In particular, aluminum ladders can be folded and the stacking size is only 1m.

Ameca ladder

Compact aluminum ladders come in a variety of designs, such as a compact, single-sided aluminum ladder with an A-sized aluminum ladder (this versatile retractable ladder can fold the A-shape to use or straighten the I mentioned above. Multipurpose aluminum ladder item).

As for aluminum ladders, apart from Nikawa, Nikita, you can refer to Ameca brand - American brand.

For example: Ameca AMD-380 single loading ladder costs VND 1,750,000.

1. The height of letter I ladder is 3.8m maximum
2. Height when shortened 88cm with 13 steps
3. Warranty 12 months.
4. Ladder surface is protected by always shiny, ultra-durable rust protection.
5. The safety lock users can choose the height of the ladder to suit their use needs.

Advindeq chair ladder

Advindeq is a Chinese brand, trusted by many families because of its good price and good quality.

For example, the 4-step Advindeq ADS504 chair ladder costs about 580,000 VND

1. Constructed with 4 steps, the opening height reaches 121cm and the load up to 150kg allows you to perform many different types of work such as repairing, assembling overhead items, decoration, wall cleaning, housing, rooms, taking objects in places beyond reach .
2. The steps are designed to be large and still create friction, safe to use for both the elderly and children.
3. Maximum load of 150kg
4. Warranty 12 months

In addition, you can refer to the Nikawa ladder chair, Sumika seat ladder, or Ninda chair ladder - These are 3 luxury brands from Japan.

Nikawa sliding ladder, Poongsan brand

Nikawa can be said to be the leading brand of all-round aluminum ladders, including industrial aluminum ladders. This Nikawa sliding ladder is mostly used in industrial electrical industry, so there will be additional safety insulation features, for example:

The Nikawa NKL-120 three-step insulated staircase costs about VND 18,850,000

1. Ladder is covered with high-grade glass fiber for optimal insulation. Brackets are equipped at both ends, covered with corrugated rubber, anti-slip when used.
2. High-strength and compact aluminum material, including 3 interlocking sections to help carry, move easily and flexibly.
3. Minimum use height: 5.15m - Maximum usage height: 12m.
4. Warranty 12 months.

Poongsan is a brand from Korea, up to 24 months warranty. Poongsan sliding ladders are imported directly in Korea so you can rest assured to use them. For example:

Aluminum ladder sliding Poongsan PS-3120-2 costs about VND 7,780,000.

1. The lowest height of use is 6.23m - The maximum height is 11.35m and the ability to withstand the load up to 100kg, bringing the user convenience.
2. The structure is made of 100% aluminum which is durable, anti-slip. Automatic D-lock design
3. Import 100% from Korea - 24 months warranty.

Choosing a genuine brand aluminum ladder is not a prerequisite to help you get the best product. Because if you choose to buy aluminum ladders in unreliable places, it will make you buy fake, low quality goods.
