Durex condom

Durex comes to mind about condoms. This is a thought deeply embedded in the subconscious of many people, not only in Vietnam but also around the world. Durex is a brand from the UK, appeared in the market since 1929. During the past 90 years, Durex has constantly improved and innovated to bring quality and premium condom products most meet the increasing needs of consumers.

Durex condom products are all manufactured from selected materials (Latex latex) on modern production lines. 100% of products are electronically tested, pressure and elasticity tests ensure that standards are much higher than the general standards of the World. Durex condoms are also tested for dermatology to ensure skin safety

and allergy prevention, .

Durex brand has a full range of inspection and examination papers from the authorities. When imported into Vietnam, Durex condoms are also licensed by the Ministry of Health to meet quality standards.

Durex's outstanding condoms

1. Durex condom extends relationship time

Living habits, life pressures and many other factors all have a negative impact on the quality of each love. A condom that extends the relationship time of Durex is born as an effective solution to make your sex life more interesting. With this product, you can extend it from 5 to 7 minutes for each intercourse. Try it and enjoy the wonderful moments.

Typical of these must be: Durex Performa

Currently, Durex Performa is being sold on META.vn at a price of 210,000 VND / box of 12 pcs. Products containing 5% benzocaine cause mild numbness. 52.5mm diameter helps delay orgasm and increase erection time so you can be more proactive with every "love".

Durex Performa is being chosen by many couples to keep the fire for each more fun.

2. Durex tendon thorny condom

Usually, condoms are only for contraception, preventing some sexually transmitted diseases. However, for Durex, that is not the only thing. Along with the development of society, the demand of users is increasing, so Durex has launched the product of ribbed condoms to create a new feeling for each intercourse.

Durex condoms possess a longitudinal body design to support female stimulation, creating a completely different experience. To suit each person's preferences, there are many different ribbed designs to suit each person's tastes and tastes.

The typical product of this condom line must be Durex Pleasuremax.

The price of 200,000 VND / box of 12 pieces, around the sack are floating veins and beads that help bring female excitement and a stronger feeling.

3. Durex condoms according to size

As a product of British origin, Durex is proving to be attractive in many different markets. For each market, Durex is constantly exploring and developing so that the quality and size can be suitable for each customer.

If you miss an "oversized" item, don't worry, because this Durex can help you.

Some typical examples are:

Kingtex Durex condoms are considered to be ultra-small sacks or Durex Comfort which is a large-sized bag that feels comfortable.

Sagami condom

Besides Durex, Sagami is also an impressive name in the condom market.

This is the first brand to produce colored condoms, condoms and condoms with lubricants that are adjusted to the pH of the female vagina. Over 80 years of establishment and development, Sagami's condom products have been widely available in nearly 80 countries, including France, Switzerland, Italy, Portugal, Spain, Finland and Na. Uy, Sweden, America, Korea, Mexico .

With the unique advantages of Polyurethane, Sagami soon realized the ability to apply to produce the best condoms in the world. After a long period of research and experimentation, in 1998, the world of condoms marked the success of Sagami when successfully manufacturing Sagami Original condoms using this special Polyurethane compound. This material is often used to produce materials for cardiovascular transplantation in medicine, so it can withstand three times the pressure and twice as much pulling force, and without an unpleasant rubber smell, brings Maximum comfort for both.

As soon as it was born, Sagami Original products have attracted special attention of consumers worldwide.

Currently, Sagami has launched the world's thinnest product, 0.01mm Sagami Original 0.02 previous usurpation. However, Sagami has a relatively high price compared to the common ground. Low-income people will find it difficult to use this type of bag.

If you want to feel the truth, use it, but don't choose Sagami!

Okamoto condom

Although it is still quite new in Vietnam market, however, do you know Okamoto is the leading bag brand in Japan developed from 1934 until now. The brand was born and developed at the same time as Durex, but Okamoto was influenced by World War II, so the development process was somewhat restrained.

However, until now, Okamoto has also reached out to more than 60 countries in the world with lots of quality condoms.

In Vietnam, Okamoto condom products are also supported by consumers. Okamoto has won many standard certifications such as ISO, JIS, GB, .

Note the need to know when choosing to buy condoms

1. Select the type of bag of appropriate size, fit, avoid too tight or too wide.
2. Choose the type of bag with features suitable to the needs of use: Condom condoms, ultra-thin condoms, **condoms lasting time** .

3. Choose a reputable and quality brand.
4. Choose a reliable and reliable address to buy.

The best condom today

With the above sharing, you must have chosen yourself. If you have economic conditions and want to experience the most authentic feeling, Sagami is the first choice. However, if the budget is limited and the use of your condom is long-term, Durex is also a great suggestion.

If you need to use the above products. Please contact us immediately for advice and support. We are committed to: Packing carefully, delicately and securing absolute customer information.
