Currently, the used laptop market is very diverse with well-known brands such as used Dell laptops, used Asus laptops, and used Acer laptops. If you're unsure **which used laptop brand offers good quality** and price, here are some suggestions for the best used laptop models for you.

Which brand of used laptop should you buy? Find the best used laptop models, including Dell, Asus, Acer, and more.

Table of Contents:

1. Which brand of used laptop should you buy?
2. Affordable, quality used laptop models.

1. Which brand of used laptop should I buy?

1.1. Used Dell Laptops

Dell is one of the top laptop brands on the market today, renowned for its durability and exceptionally long battery life. While new computers require cumbersome warranty procedures according to manufacturer regulations, used laptops can be serviced anytime, anywhere, with very simple procedures.

At CellphoneS, with 4GB - 8GB of RAM, you can easily buy a used laptop at an attractive price ranging from 5-10 million VND or 10-20 million VND depending on the model and series, which is 30-50% cheaper than a new one.

1.2. Used ASUS Laptops

Asus laptops impress with their diverse models and attractive designs. Each segment has a different price point, but most used laptop models are affordably priced. From entry-level laptops and office laptops to gaming and business laptops, all are meticulously crafted. Components such as screens and keyboards are considered highly durable.

At Dien May XANH, the price of used ASUS laptops ranges from 9 to 20 million VND, which is 30-70% cheaper than new ones.
