WhiteFlame is an RPG that was developed in late 2019 by a Vietnamese studio called PYZ Game. Currently, this interesting game has been officially approved and released by Google Play.

The content of the game revolves around the journey to find the solutions to the mysteries of the world of a young adventurer, having a contract with the ultimate fire.

WhiteFlame allows players to adventure in a diverse open world environment with many different types of enemies and bosses. In order to fight against the enemies and find answers to buried secrets, players must have time to practice and master the skills in the game.

In WhiteFlame, players are also allowed to upgrade characters, create equipment depending on their play, build a house to live, grow and even get married.

In addition to attractive gameplay, WhiteFlame also attracts players by a beautiful 3D graphics background that is not inferior to any foreign-made games. WhiteFlame is available in both Vietnamese and English.

Currently WhiteFlame is available on Google Play and it's free. Gamers interested in this Vietnamese-made role-playing game can access the link below to download and experience. Hopefully, the developer of PYZ Game will soon add to the iOS platform in the near future.
