

Windows 8 Consumer Preview achieved one million downloads

After 1 day of release, the overview version of Windows 8 operating system is Windows 8 Consumer Preview has been downloaded to 1 million times.

On March 1, Microsoft announced after a launch date, an overview version of Windows 8 operating system is Windows 8 Consumer Preview (a preview for consumers, more comprehensive than the preview for developers) have been downloaded up to 1 million times.

Microsoft spokesman excitedly " *showed off* ": ' *Only 1 day, and 1 million downloads of Windows 8 preview for users.* '

Windows 8 Consumer Previewed the ' *software giant* ' released on February 29, bringing with it a lot of expectations, because it is Microsoft's latest operating system and can be used for both desktop and laptop computers. hands as well as tablets.

Through the aforementioned preview, the experts had very positive initial reviews for Windows 8.

The operating system incorporates the tablet's ' *touch-sensitive* ' capabilities, as well as the Metro-style interface with powerful experiences like on Windows 7 desktops.

As planned, Microsoft will release Windows 8 later this year.
