AIRmini
Fastest wireless SSD

A single solution for all your data storage problems.

- 
2200 mbps
Superfast Speed
- 
4 TB
Upto 4tb Storage Option
- 
Fast Charging
100% in a Hour
- 
Wireless Data-Sharing
- 
Data Security-Encryption
- 
Multi Device-Sharing

The product has a data transfer rate of up to 2200mbps, a capacity of up to 4TB, support for fast charging, wireless data sharing, data encryption, and connecting multiple devices at the same time.

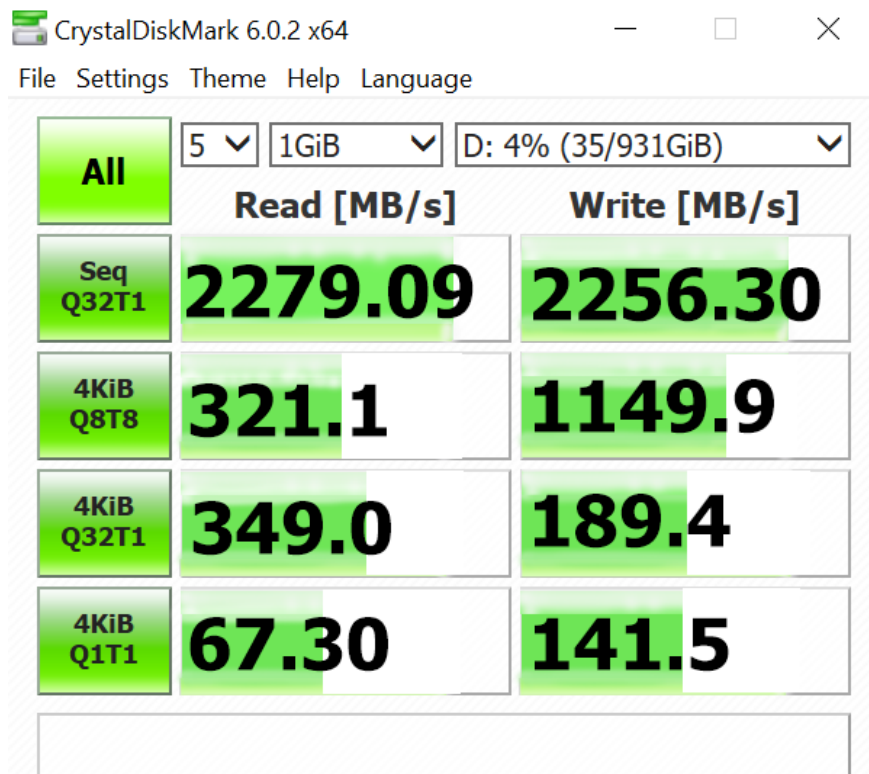

AIRmini size is only similar to a USB hub, even thinner and lighter. The product is also IP67 shock, dust and water resistant to ensure no damage even when carried on long trips, suitable for professional nature photographers when entering the rainforest, up the mountain. snow or even go deep sea exploration.

In addition to using high-speed Wifi 6, AIRmini also has a USB-C port for charging and transferring data via a connection cable. This port is also Thunderbolt 3 standard with high speed, supports fast charging in 60 minutes and can transmit data wirelessly for up to 10 hours in a row. In addition to laptops, computers, AIRmini is well compatible with Android phones, iOS, some TV lines, Windows operating systems, MacOS and even Linux.

The data transfer rate of 2200mbps allows you to quickly copy data between devices in a flash. Specifically, according to the manufacturer's test, AIRmini can copy a 10GB data file from the hard drive to a Macbook in just 5 seconds. Of course, this speed is achieved only when the device supports the high-speed Wifi 6 standard, the transmission is good, unobstructed.

In addition, when sold, AIRmini will support data transmission to up to 12 devices at the same time while keeping a very stable speed, up to several hundred mbps through its own management application. The side of this hard drive has a single button, in addition to turning it on and off, it can also automatically back up data from a certain device with just one operation.

Currently, you can pre-order AIRmini with capacities from 1TB to 4TB, priced from 169 USD to 479 USD, equivalent to about 3.8 to 10 million VND. It is expected that the goods will start to be paid from next April, worldwide delivery, but not including shipping and delivery costs.
