

Xiaomi launched 2 fancy mechanical keyboards and fancy wireless mice

MIIW Technology, a subsidiary of Xiaomi has recently launched two mechanical keyboards and wireless mice with a beautiful classic design, towards the neat and convenient for office workers.

MIIW Technology, a subsidiary of Xiaomi has recently launched two mechanical keyboards and wireless mice with a beautiful classic design, towards the neat and convenient for office workers.

The MIIW Elite keyboard has 85 keys, the keys are designed to be round or rounded corners soft. The keyboard has a scissor mechanism, supports dual connection mode, can be connected via dedicated USB wireless receiver or via Bluetooth. The product is neatly designed, 7.8mm thick, supports both Windows and MacOS.

Between the Alt and Ctrl keys (to the right of the space bar) is a voice prompt, which activates the HKUST Xunfei Voice Pack. In addition, when pressing and holding this key, you can enter text by voice or press 2 times in succession to activate smart operations on PC such as weather query .

The second keyboard is MIIW 85 which has the same design as MIIW Elite but more colors. However, MIIW 85 does not have a voice prompt key.

MIIW Elite mouse has a symmetrical design, easy to hold thanks to the anti-slip design at the tail. This product also supports connecting to two wireless modes, including the receiver via USB and Bluetooth.

The trio of new products from Xiaomi will be sold on Xiaomi Youpi community fundraising website. MIIW Elite and MIIW Elite mice have a fundraising price of 199Yuan (about 650,000 VND), the selling price is usually 299 Yuan (about 980,000 VND) each. Both devices will hit the market on February 25.

MIIW 85 keyboard will be available from 11/3 and is priced at 179 Yuan (about 590,000 VND).
