

Xiaomi launched the Mi Note 10 / Note 10 Pro, the world's first 108MP camera

System of 5 rear cameras are arranged vertically in order from top to bottom.

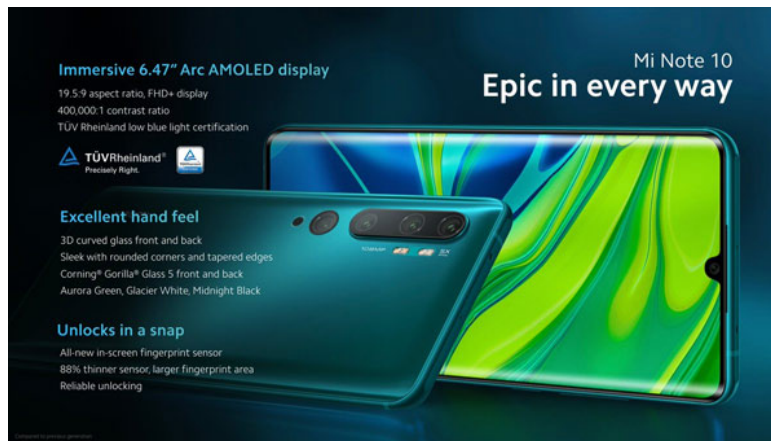

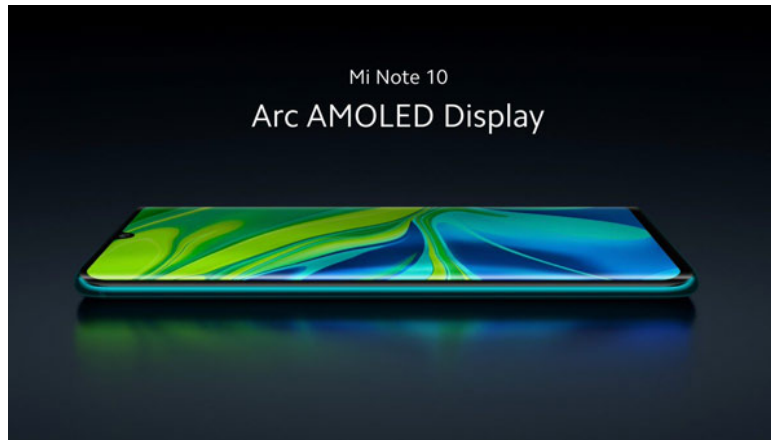

Xiaomi has officially launched the Mi Note 10, the smartphone is considered a different version of the Mi CC9 Pro, while the Mi Note 10 Pro is a more advanced model with a few hardware upgrades. The new pair of Xiaomi products will be launched in markets outside China.

1. Xiaomi launches Redmi Note 8T: Snapdragon 665 chip, 4,000 mAh battery with fast charging 18W, priced at \$ 220
2. Xiaomi launches the beautiful racing game Speed Legend: Racing Game 2019, completely free

In terms of design, the Xiaomi Mi Note 10 looks quite similar to the Mi CC9 Pro with a curved screen on the front. Its back is completed in a gradient trend with the company's logo, 5 cameras and two LED flash assemblies.

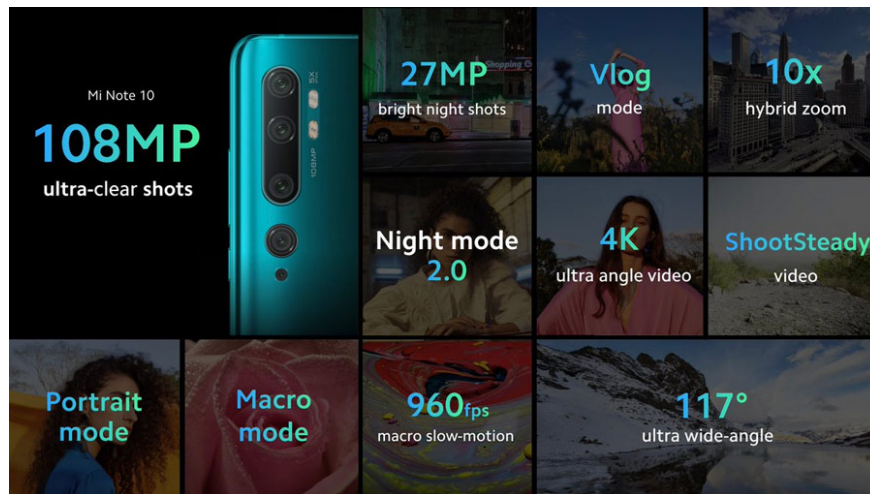

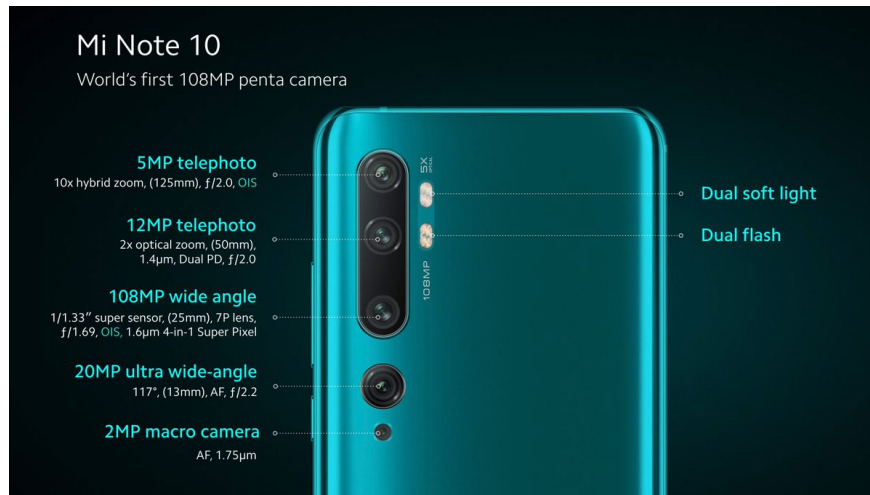

It is equipped with Corning's Gorilla Glass 5 on both the front and back to enhance durability. Arc AMOLED screen of the device is sized 6.47 inches, FullHD + resolution, according to the ratio of 19.5: 9. The Mi Note 10 has a new fingerprint sensor, which is larger and 88% thinner than the previous generation.

It has a 32MP selfie camera. System of 5 rear cameras are arranged vertically in order from top to bottom including:

108MP main camera Aperture $f / 1.69$, sensor size $1 / 1.33$ inches, 1.6micromet pixel, supports OIS optical image stabilization. 20MP camera Aperture $f / 2.2$, wide angle 117 degrees, minimum focus 2.5cm. 12MP Camera Dedicated for portrait photography and supports 2x optical zoom. 5X 8MP optical zoom camera Supports OIS, $f / 2.0$ aperture. 2MP macro camera Aperture $f / 2.4$, supports focusing in the range of 2-10cm.

Mi Note 10 is equipped with Snapdragon 730G processor, 6GB RAM and 128GB internal memory, 5260mAh battery and supports fast charging technology with a capacity of 30W.

Expected selling price of Mi Note 10 / Mi Note 10 Pro:

1. Mi Note 10 version 6GB + 128GB: Price from 549 Euro (about 14.1 million).

2. Mi Note 10 Pro with 8GB + 256GB with an upgraded camera has up to 8 components compared to 7 components of the regular version: Price is about 649 Euro (about 16.6 million).
