

Xiaomi launched the vacuum cleaner robot Mi Robot 1S capable of memorizing maps, scanning each room according to the installation schedule

Xiaomi has just launched Mi Robot 1S, the upgraded version of the robot vacuum cleaner model is quite popular and is being sold genuine in Vietnam.

Xiaomi has just launched Mi Robot 1S, the upgraded version of the robot vacuum cleaner model is quite popular and is being sold genuine in Vietnam. The 1S version improved and added a number of new features such as better mapping capabilities in a walled sweeping area, upgrading the ability to detect doors and walkways.

Thanks to the addition of an optical sensor, after scanning the areas to be operated Mi Robot 1S will create and display the map on the Mi Home application.

After setting up the active area, the robot will divide the room itself and remember them. Users can set a certain hourly schedule for robots. For example, vacuuming in the living room at 9 or 12 hours in the kitchen.

The previous accessories of the first generation are compatible with Mi Robot 1S, such as the bottom dust roll, dust filter, brush .

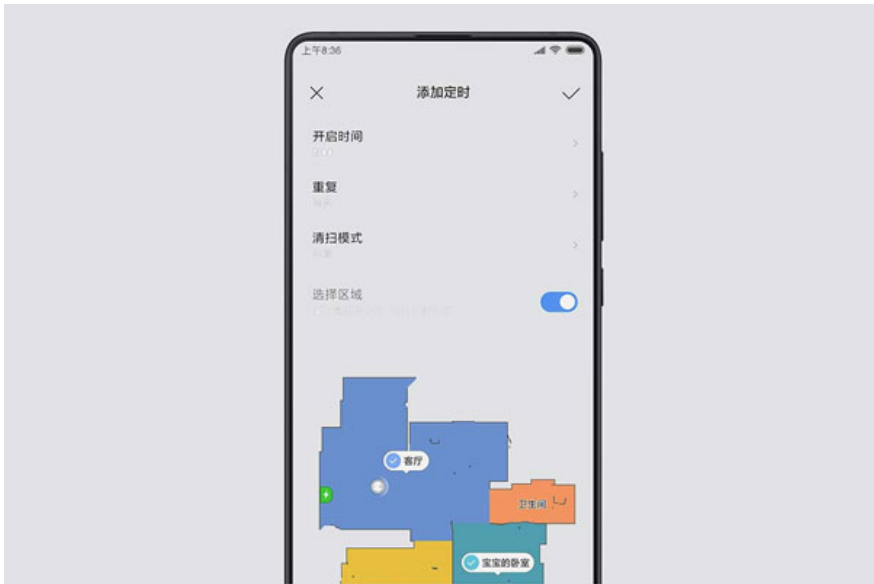

Mi Robot 1S is equipped with 8 battery cells with a capacity of 5,200 mAh at 14.4V, it has a suction power of 2,000 PA. Mi Robot 1S is sold on the xiaomiyopin sales site at a price of RMB 1,999, about VND 6.9 million.
