

Xiaomi launched the wireless mouse and Miyu keyboard with voice support, priced at 1.3 million

Xiaomi has introduced a new pair of products including a keyboard set and a wireless mouse manufactured by the Miyu brand called Miyu Elite Keyboard and Miyu Elite Mouse.

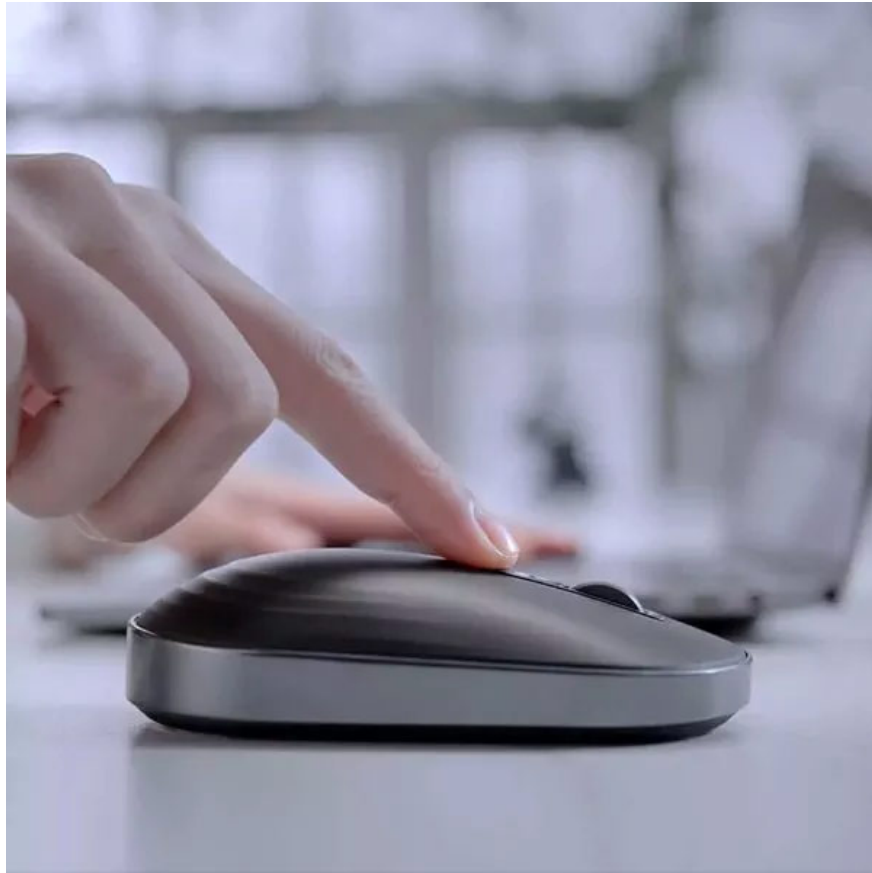

Xiaomi has introduced a new pair of products including a keyboard set and a wireless mouse manufactured by the Miyu brand called Miyu Elite Keyboard and Miyu Elite Mouse.

The duo of products is currently sold on Youpin for 378 yuan (about 1.3 million). The retail price of each mouse or keyboard product is 199 yuan (about 655,000 dong) for each product.

Elite Mouse

Miyu's new mouse model can significantly reduce the noise generated during use by using a special button design. Users can adjust the height of the body to fit the hand.

The Elite Mouse has a thickness of 2.38cm when in normal state, when in professional mode will raise 1cm more.

Elite Mouse supports dual connection mode, via dedicated USB wireless receiver or Bluetooth. Users can choose the connection mode by pressing the front function key in front of the mouse or double-clicking quickly to switch.

This wireless mouse is equipped with a 510mAh battery, each charge can be used for 15 days.

Elite Keyboard

Miyu's new keyboard also supports dual connectivity like the Elite Mouse. The Elite Keyboard is designed to be neat and has a thickness of 7.8mm with a metal frame.

This wireless keyboard uses a scissor mechanism, which has a total of 85 buttons. It has a built-in lithium battery and supports charging via USB-C. The battery life of the keyboard lasts 2 hours after each charge.

The highlight of Elite Keyboard is voice input. Between the Alt key and the Ctrl key, to the right of the spacebar for a microphone key,

This key can activate HKUST Xunfei Voice Pack. To enter text by voice, users only need to hold the microphone key, to activate smart operations on the computer press 2 times in a row. The Elite Keyboard has a speech recognition speed of up to 180 words per minute, with a response time of less than 200ms.
