

Xiaomi launches handheld vacuum cleaner: strong suction power, wireless charging, the Pro version has an OLED screen, priced from 7 million

In addition to the built-in screen, Roidmi NEX 2 and NEX 2 Pro handheld vacuum cleaners also support connection to smartphones via Xiaomi's familiar MIJIA application.

Xiaomi has just launched two new handheld vacuum cleaners on the Youpin community fundraising platform, called Roidmi NEX 2 and Roidmi NEX 2 Pro. Both products are manufactured by Roidmi - a partner in Xiaomi's eco chain, owning a color screen, many impressive features and improvements compared to the previous generation.

Roidmi NEX 2 and NEX 2 Pro have a beautiful design. While the NEX 2 only has an LED screen, the Pro variant is equipped with a more advanced OLED screen. This seems to be the main difference between the two models.

In addition, users can also easily distinguish these two products, because the NEX 2 Pro has a gray painted case, while the standard variant carries the main color tone is white.

In terms of features, Roidmi NEX 2 and NEX 2 Pro have a maximum capacity of 435W, as well as a vacuum capacity of 26500 pascal. Both models are equipped with 2500mAh / 72Wh battery capacity, can be cleaned continuously for many hours.

Users can charge these two vacuum models with the included wireless charging system, which takes 2.5 hours to fully charge. According to the manufacturer, both models have a 0.55L dust cup and use a HEPA filter system, displays the cleaning status right on the screen and supports connecting to smartphones via the MIJIA application.

Roidmi NEX 2 is being sold on Xiaomi's Youpin crowdfunding platform, with a retail price of 2099 yuan. Meanwhile, Roidmi NEX 2 Pro - a higher-end model sold for 2499 yuan .
