

Xiaomi launches smartwatch for young children: Dual camera, 5G network

The watch also allows parents to actively monitor their children.

In addition to the newly introduced Mi Air 2S True Wireless headset, Xiaomi has also launched a smart watch for children with a price of only from 899 yuan, equivalent to about 3 million. At the same time, there are many practical features to help children learn and entertain at the same time, which can help parents monitor their children at any time.

This watch has a full name of Xiaomi Mi Bunny Children Watch 4. This is the next generation to the previous Watch 3 version. The highlight of this device comes from the fact that it has 2 cameras, one on the front and one on the side, each with 5MP HD resolution. The front-facing camera will be used to make video calls, while the side camera will be used so that parents can monitor their surroundings.

Mi Bunny Children Watch 4 has a square face with a size of 1.78 inches, using AMOLED panels for display quality is quite good. In addition, the watch also has a very accurate navigation system, which can identify the location of children in more than 4,000 commercial centers, railway stations and airports. Xiaomi says the watch uses a miniature AI assistant and positioning algorithms to pinpoint the most accurate location.

In terms of connectivity, Mi Bunny Children Watch 4 supports both 4G and 5G networks with support from the three largest carriers in China. The watch can also make VoLTE HD calls and locate even abroad (supporting over 200 countries and territories).

Some other features of this watch that help parents to monitor children as proactively as possible include setting up the list of incoming calls / SMS, preventing disruption of the child's classroom. via the remote application. In addition, Mi Bunny Children Watch 4 also comes with many learning modes such as learning English, learning pronunciation, practicing pronunciation or checking lessons directly on the watch. The device has a 920mAh battery and can last up to 8 days of continuous use according to Xiaomi.

Users in China can pre-order the Xiaomi Mi Bunny Children Watch 4 watch from April 3 to April 8. The price at the time of booking will be reduced to only 849 yuan.
