

Xiaomi Mi 10 Lite 5G launched: Snapdragon 765G, 48MP camera, priced from VND 8.9 million

Mi 10 Lite 5G is the first mid-range 5G smartphone that Xiaomi has launched in the international market.

After launching the Mi 10 and Mi 10 Pro earlier this month, Xiaomi has just officially launched the Mi 10 Lite 5G - its latest mid-range smartphone during the event held in Europe.

Design

Mi 10 Lite 5G is Xiaomi's first mid-range 5G phone for the international market. The product possesses a rather strange design, unlike any other smartphone that Xiaomi (or even Redmi) has been introduced before.

Instead of using the same punchy design as its brothers, the Mi 10 Lite 5G is equipped with an AMOLED screen with a waterdrop-shaped notch to accommodate the selfie camera. It has a back made of glass, the rear camera has a rectangular shape identical to the Redmi Note 9 Pro but is located in the top left corner, instead of being in the middle.

Technical data

The Mi 10 Lite 5G has a 6.57-inch AMOLED screen with Full HD + resolution, possesses the hardware power of Qualcomm's Snapdragon 765G processor, combined with 6GB of LPDDR4x RAM and UFS 2.1 internal memory up to 128GB.

Moving to the back, Mi 10 Lite 5G carries a 4-camera system, including a 48MP main sensor, ultra-wide angle sensor, depth sensor and macro sensor. Meanwhile, the selfie camera on the front of the machine has a resolution of 16MP.

Mi 10 Lite 5G comes with a 4160mAh battery, supports 20W fast charging and has an in-screen fingerprint sensor. In addition, the device also has a 3.5mm headphone jack, supports dual-mode 5G, 2 SIM, Wi-Fi 802.11ac, Bluetooth 5, NFC and USB-C port.

Price and release time

The purpose of Xiaomi when launching the Mi 10 Lite 5G is to make 5G accessible to more users, so it is not surprising that this phone starts at just 349 Euro (about 8.9 million VND). for 64GB memory version.

Meanwhile, the more advanced version with 128GB of memory has a retail price of 399 Euro (about 10.3 million). The product is expected to hit shelves in early May with three color options, including White, Gray and Blue.
