

# Xiaomi Mi 10 Lite 5G: Snapdragon 765G, 48MP camera, priced from VND 8.9 million

After the launch of the Mi 10 and Mi 10 Pro, Xiaomi has recently officially launched Mi 10 Lite 5G - its first mid-range 5G smartphone for the international market during the event held at Europe.

After the launch of the Mi 10 and Mi 10 Pro, Xiaomi has recently officially launched Mi 10 Lite 5G - its first mid-range 5G smartphone for the international market during the event held at Europe.

## Design

The Mi 10 Lite 5G has a pretty fancy design, unlike any of its previous smartphones.

Mi 10 Lite 5G is equipped with an AMOLED screen with a waterdrop-shaped notch that places the selfie camera instead of using the same punched design as its brothers. The back of the device is made of glass. The rear camera cluster of the device has the same rectangular shape as the Redmi Note 9 Pro but instead of the middle, it is located on the top left.

## Technical data

The Mi 10 Lite 5G is equipped with a 6.57-inch AMOLED Full HD + display.

In terms of hardware, the device owns Qualcomm's Snapdragon 765G processor, 6GB of LPDDR4x RAM and UFS 2.1 internal memory up to 128GB.

The cluster of 3 rear cameras of Mi 10 Lite 5G, including 48MP main sensor, ultra wide angle sensor, depth sensor and macro sensor. It has a selfie camera on the front that has a resolution of 16MP.

Mi 10 Lite 5G owns a 4160mAh battery, supports fast charging 20W. It also supports dual-mode 5G, built-in fingerprint sensor under the screen, with 3.5mm headphone jack, USB-C, 2 SIM, Wi-Fi 802.11ac, Bluetooth 5, NFC.

### Price and release time

The Mi 10 Lite 5G has three color options, including White, Gray and Blue. Expected, the device will hit shelves in early May.

1. The Mi 10 Lite 5G version of 64GB memory costs 349 Euro
2. Mi 10 Lite 5G 128GB version of memory costs 399 Euro
