

Xiaomi officially launched the Redmi 8A, 5000 mAh battery, USB Type-C, priced at 2,150,000 VND

Redmi 8A has a beautiful design, good hardware configuration, a battery with a capacity of up to 5000 mAh but has an attractive price from only 2,150,000 VND.

Xiaomi has recently launched the Redmi 8A, its new low-cost mobile model. Redmi 8A has a beautiful design, good hardware configuration, a battery with a capacity of up to 5000 mAh but has an attractive price from only 2,150,000 VND.

Redmi 8A has a 6.22-inch screen, HD + resolution, has water droplets and Corning Glass 5 makes it resistant to impact. The device is equipped with Snapdragon 439 chip, 2GB / 3GB RAM, 32GB internal memory, expandable microSD memory card with a maximum capacity of 512GB.

Thanks to the 12-megapixel Sony IMX363 sensor at the back, the Redmi 8A becomes the only smartphone with the best image sensor. The main camera has an aperture of $f/1.8$ that allows taking photos with large pixel sizes of $1.4\mu\text{m}$. 8MP selfie camera capable of taking AI Portrait mode photos

In particular, Xiaomi's newly launched cheap mobile phone supports 18W fast charging on the Type-C port and has a huge 5000 mAh battery, which meets the high-intensity needs of users.
