

# Yahoo chat software will remove many features on December 14

Two of the features that will be removed next time are Windows Live Messenger and Yahoo! Messenger Pingbox does not create much value for users.

**Two of the features that will be removed next time are Windows Live Messenger and Yahoo! Messenger Pingbox does not create much value for users.**

After December 14, users will not be able to use two features, Windows Live Messenger and Yahoo!Messenger Pingbox on Yahoo!Messenger too.

One of the applications removed on Yahoo! Messenger cover is Windows Live Messenger. This feature enables users to make phone calls, video conference and group messaging. Besides, the integrated blog and social networking tool Yahoo! Messenger Pingbox will also be deactivated on December 14th.

Yahoo also added the Yahoo! Voice Phone and Voice Out are expected to be "closed" on January 30 next year. Users will not be able to deposit money into the account after the time of service suspension. At the same time, the money has not been used in your Yahoo! Voice Phone and Voice Out after January 30 will also be refunded to customers.

For Yahoo! Messenger on Android and iOS, this software company only retains some features like international SMS messaging to free phones or Facebook support. International SMS messaging service only applies to some countries such as USA, Philippines, Vietnam, Indonesia, Malaysia, Canada, Pakistan, Kuwait and Thailand.
