

Yahoo's new mail looks better than you think

Yahoo Mail has been significantly refreshed, tidy, faster and can compete with rivals such as Gmail or Outlook. There is also the option of Yahoo Mail Pro for those who want to step deeper into the Yahoo ecosystem.

In recent years, Yahoo has been mentioned by Verizon's long-term plan of "selling itself" and many data leaks affect more than 1 billion people. Emerging from the cloud with a new owner, Yahoo starts with Yahoo Mail.

Yahoo Mail has a more modern look

Yahoo Mail now has a new, better looking shirt. The user interface is rebuilt from scratch and the result is a modern, user-friendly desktop application. The old Yahoo Mail app looks like it belonged to the previous era, while Yahoo Mail is very contemporary.

New Yahoo Mail also offers the ability to view all image and video attachments that you send and receive. You can preview them in a side-by-side view. Search options are also upgraded, making it easier to find.

Finally, mention Yahoo Mail Pro, replacing the Ad Free Mail product. This package eliminates ads and is prioritized for support. The price is \$ 35 / year or \$ 3.5 / month, with the mobile version the price will be \$ 10 / year or \$ 1 / month. You can use the new Yahoo Mail right now, and if you don't like it, you can change it, what is the loss?

Yahoo may not be dead yet

The truth is that Yahoo (the new parent company, Oath) still faces search and attract customers. The brand seems to have been destroyed after years of neglect and poor PR. However, Yahoo Mail is really good and it is quite possible to bring the name Yahoo back to a higher position.
