

Yen Island: the only hot and cold double beach in Vietnam

Yen island owns the enchanting beauty of mountains and sea combined with the unique natural life of the bird nest. It has the most unique double beach in Vietnam, standing in the middle of white sand strip you can freely choose the two sides of the beach, a hot and cold one side is extremely interesting.

Yen island is located in Nha Trang bay, Khanh Hoa, about 20km from the mainland, is one of the tourist destinations that you can not ignore when arriving in Nha Trang. With the enchanting beauty of the mountains, the sea combined with the unique natural life of the bird nest will help you have a very meaningful and interesting travel.

"Tourist paradise"

What makes Yen island is compared to "tourist paradise" is the most unique natural double beach in Vietnam. Nature always contains interesting and strange things and Yen island is a testament to that. It has two clear beaches on one side, a cold side is distinguished by the natural white sand in the middle. Guests can choose to relax in the warm or bathing waters under the cool water on the other side.

The sea water here is green jade, clear and see through the bottom. So here you can snorkel or go to the ocean-going glass bottom boat, watching the brilliant coral reefs and rich marine species.

On the island, there is the peak of Du Ha mountain, the mountain is only about 90m high, very easy to go, you can climb to the top of the mountain, watching the whole beautiful island in sight, admiring the clear and

immense sea view large and intertwined are strange island shapes, enjoying the fresh air and taking unique memories photos.

Being put into tourism, Yen island is built a lot of small bamboo bridges over the rocky mountains, so visitors can easily travel and explore the island. Although there are human impacts, the landscape and ecosystem of Yen island are always preserved the inherent untouched nature of nature.

Yen island serves the main supply of raw materials for the company to produce bird's nests so you can easily see thousands of bird nest nesting in caves and all cliffs cliffs. The workers here must be very fabulous, climb up the steep cliffs, use their ingenuity and bravery to exploit the bird nest processed into nutritious dishes.

If luck comes at the time of March or August, you'll be observing the bird's nest harvesting process, which will surely be an unforgettable experience.

Notes when traveling Yen island

1. Yen Island is under the management of Khanh Hoa Salanganes'Nest, so if you want to travel to Yen island, you have to buy tickets to tour. Fares include commuter train tickets, breakfast, lunch and other

- snacks so you don't need to prepare lots of food to bring.
2. Yen island only serves sightseeing during the day so you can combine Yen island tourism in Nha Trang tours.
 3. Should visit Yen island in the dry season to be able to observe the process of harvesting oats.
 4. Maintaining cleanliness to ensure the freshness of nature.
