

# You can now play Minecraft for free in the browser

Minecraft is 10 years old and to celebrate this milestone, Mojang has released Minecraft Classic for the web. This means you can play Minecraft in your web browser.

Minecraft is 10 years old and to celebrate this milestone, Mojang has released Minecraft Classic for the web. This means you can play Minecraft in your web browser. You don't need to download anything, and Minecraft Classic is free.

## How to play Minecraft for free in the browser

Minecraft Classic has been available for free for many years. And this is the first time this game is available to play on the web browser. However, Minecraft Classic was previously only available on Windows, Mac, Linux and Java as mandatory conditions.

Now, just point your browser to Minecraft Classic website ( *reference link: <https://classic.minecraft.net/>* ) and can play for free without downloading anything. The only requirement is to have a keyboard, so you can't play on your smartphone or tablet.

As its name suggests, Minecraft Classic is not Minecraft of 2019. Instead, this is an existing game in 2009 and you will have to use the cumbersome old user interface.

Minecraft Classic only allows you to play in Creative mode, so there is no Survival mode to fight enemies. Besides, there is no way to save the game. However, you can invite up to 9 friends to join the game, by sending them a link.

# Minecraft Classic is part of gaming history

Minecraft Classic cannot compete with the current version of this game. However, Minecraft Classic is free and can be easily played in the web browser.
