 1. Refer to the following articles:

1. Turn on / Turn off Messenger group notifications:

Just like when you have a private chat, we can also turn off notifications with group chat. Turning off this notification will help users focus on work more. The implementation is also very simple.

First, **click on the group name** . In the interface, scroll down and select the **Notifications** item. Click on that item and appear more time options.

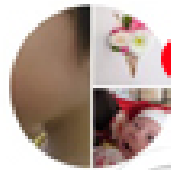

1. For 15 Minutes (In 15 minutes).
2. For 1 Hour (In 1 hour)
3. For 8 Hours.
4. For 24 Hours.
5. Until turn it back on (When I turn it back on).

You click on the time you want to turn off and you will see a time notification in Notification.

2. Set a nickname for the chat group:

Also in the settings for the group will have the option Nicknames. Users can set a nickname for each member of the chat group as they wish, with a simple change.

Step 1:

Click on the group name, and select **Nicknames** . Switch to the Nickname interface with the members' current names. To give a member a nickname, please click on that member.

Step 2:

Next, enter the new name you want to set and click **Save** . After that, you will see the new nickname we have placed for your friends in the list.

8. Create a shortcut for the group:

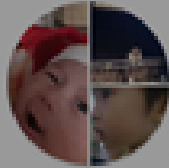

If you want to open a chat Messenger group, you can chat faster then you can bring that group to the Home interface. As such, we don't need to go into the group section, find the chat group in the usual way.

At the **Messenger application main interface** , click the **Groups group icon** . The list appears with Messenger chat groups. In the chat group you want to bring up the Home interface, click the **3 small dots icon** . Then select **Upin Group** .

Back in the application's **Home interface** , you will see the group name appear there.
