

Zorin OS 15, a user-friendly version of Linux operating system, for those who are tired of Windows or Mac

Zorin OS 15, the operating system version is built on the Linux platform but has been customized to suit beginners, focusing on simplicity and ease of use.

Linux is a very interesting operating system, but for the average user and less knowledgeable about programming, it is not very friendly.

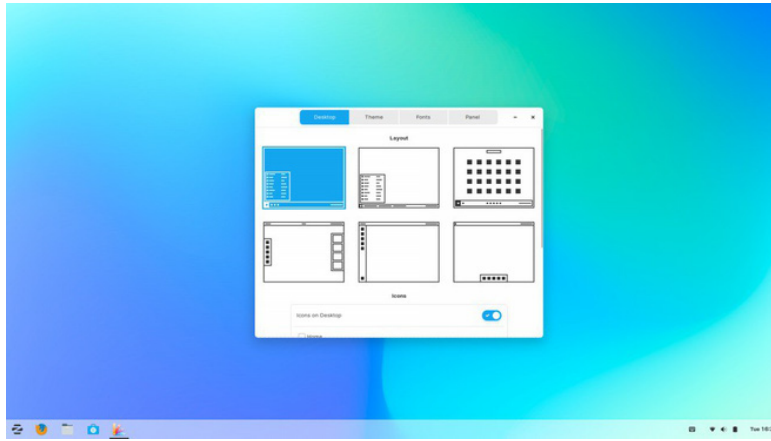

However, this will change with Zorin OS 15, the operating system version built on the Linux platform but customized to suit beginners, focusing on simplicity and ease of use. This will be a great choice for users who are tired of Windows, Mac and want to start joining the Linux world.

Zorin OS 15 currently has two separate versions:

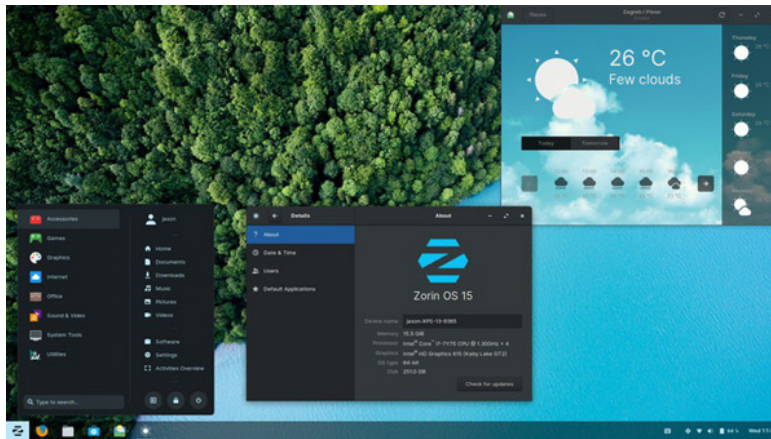

Ultimate: This version integrates more specialized software to support users and costs 43 USD.

Core: This version includes the default applications like in Ubuntu 18.04.2 and is completely free.

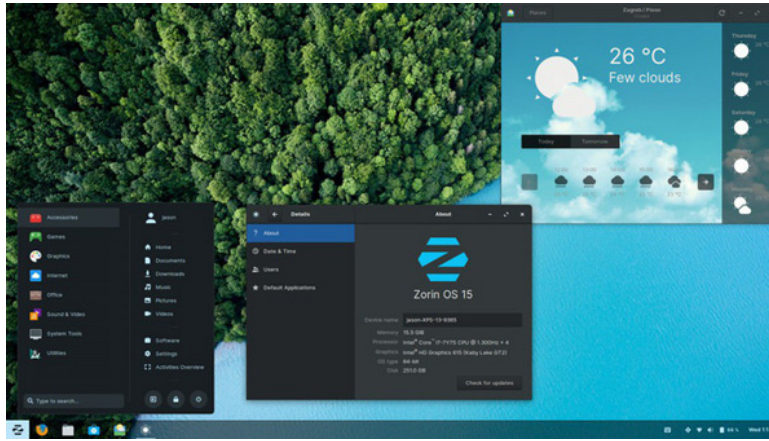

Zorin OS 15 has 6 interfaces for users to choose from.

The interface of Zorin OS 15 has all 6 different interfaces with powerful customization capabilities. These include Windows-like interfaces, like Mac or Unity so that users can choose. In addition, Zorin OS 15 also allows users to customize menus, system tray and layout according to their own needs.

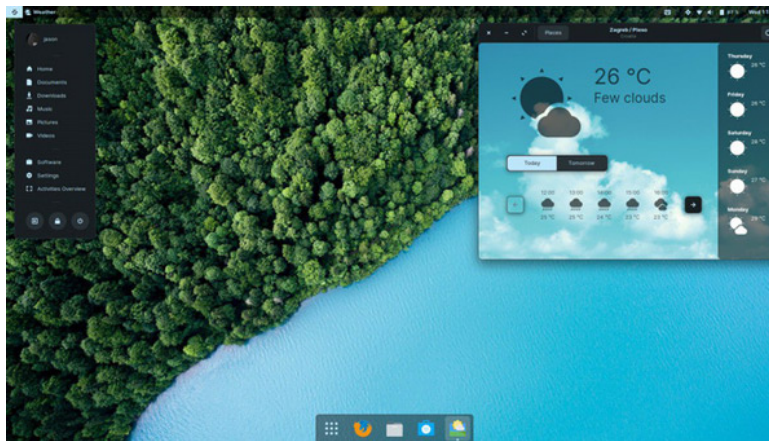

Windows-style interface supports Dark Dark interface.

In Zorin OS 15, the necessary code is pre-installed to allow users to experience the applications already in the operating system such as watching movies, YouTube and Netflix on Firefox with very good quality.

MacOS interface.

Zorin OS 15 Ultimate also supports professional tasks such as: Office with LibreOffice, FocusWriter, GnuCash, HomeBank; Graphics with Blender, Darktable, Krita, LibreCAD, Synfig Studio; Video and audio with Ardor 5, Audacity, Handbrake, Kdenlive, Kodi, OBS.

MacOS interface supports Dark Mode.

Zorin OS 15 is very light, the configuration requires only 10GB of free space, 1GHz dual-core chip, 2GB of RAM, 800x600 pixel screen.

A UK-based computer manufacturer, Star Labs, will launch the first laptop pre-loaded with Zorin OS 15 operating system on June 21.

Zorin OS 15 is installed on Star Labs laptops.

Whether Zorin OS 15 can compete with Windows and Mac, we will have to wait to know the results. Currently, the free version of Zorin OS 15 Core is available on Zorin's homepage, you can access the link below to download and experience.
